## Softonic

### Senior Software Engineer

julio de 2015 - julio de 2017 (2 años 1 mes)

Barcelona

As a Senior Software Engineer I'm in the core part of softonic doing TDD, profiling and creating new stuff.

## LeadTech Group

### Senior Technical Team Lead

agosto de 2014 - junio de 2015 (11 meses)

Badalona

As a Senior Technical Team Lead I created strategies to guide the main project in the company called solimba.

With a soa architecture I guide the roadmap of the product and the objective to improve scalability and continue growing up the project.

I have been implemented Agile Practices in company using scrum, kanban and scrum-ban, defining Architecture of a multicomponent project, all API RESTful communicated with Components with AngularJS, Laravel, Silex, RabbitMQ, Mysql MondoDB moving from vagrant to Docker environment and Ansible using AWS as a cloud platform.

Coordinating development teams to complete Acceptance Criteria. Assessing the business value of the functionality of stories.

Pairprogramming with developers to follow Solid patterns and good practices. Defining the Architecture and a modular component system. Implementing Continuous Integration with unit testing using TDD.

Moving from standalone servers to AWS autoscaling redundant architecture. Creating the BDD Platform with Cucumber and Selenium Grid. Creating from scratch a CI Jenkins based development architecture.

## Typeform

### Technical Team Lead

junio de 2013 - agosto de 2014 (1 año 3 meses)

Barcelona

As a technical lead I developed strategies to grow the startup to few developers to two big scrum team. Growing up from prototype to final released

product. I have been Instructing Technical team in Agile Practices using scrum, kanban and scrum-ban, helping defining Architecture, helping introducing TDD and BDD later. In Typeform I have been since prototype product until released product.

- Coordinating development teams to complete technical tasks focusing on functionality.
- Assessing the business value of the functionality of stories.
- Pairing programming with developers to help developing software design patterns.
- Creating from scratch the QA department
- Implementing Continuous Integration with unit testing using TDD.
- Optimizing AWS autoscaling redundant architecture.
- Creating a work environment and company policies to help various departments including Marketing, Sales, Customer Success, QA, Dev to work in a cohesive manner.

As a senior software developer I worked in Typeform software composed by; Symfony2 framework with PHP in multitier architecture doing TDD Practices initially and moving to BDD.

### C3PO S.A.

#### Technical Lead

abril de 2010 - junio de 2013 (3 años 3 meses)

Sant Just Desvern,

As a technical lead I have secured the development of different projects with Spain government companies working with scrum and kanban as agile methodologies.

- DNIe drivers, Ceres for FNMT.
- Cryptographic app in java applet for different private on demand and fingerprint solutions.
- Improved Software department processes and procedures to work in a cohesive manner and iterate in short sprints focusing on injecting functionality using Scrum-ban.
- Managed the entire software development life cycle of "Avanza's Project"

As a senior software developer I worked on Avanza's Project in Grails and Java with Maven repository using OracleDB MySQL and MicrosoftSQL , ANT software build system with unit testing and Selenium acceptance test, a Key management system with Cryptographic keys following NIST

recommendations of SP 800-57. I developed Mobile APP For Android and IOS in to use Smart Cards in mobile phones implementing USBCCID protocol on it. I Developed fingerprint and Cryptographic Smart Cards drivers for Windows and Linux in C. Java applet to Security concerns involving fingerprint and Cryptographic Smart Cards.

### Matinee 2000 S.L.

IT Director

febrero de 2008 - abril de 2010 (2 años 3 meses)

Barcelona, Spain

As an IT Director of Shows and Events Company I created Webpages, Mobile Apps, and Management Software for the different departments. I managed the Social Media team of more than 15 members to improve the company's presence on Social Networks. I coordinated a team of 4 members to develop a social network for the Shows and Events department of company.

As a software developer I worked in CRM for internal use as an API Rest Services to connect with Active Directory and different corporate software in the company I Participated in the development of the Social Network for company clients.
